

**“This solution has more than fulfilled our wishes for sound and design within the planned budget.”**

Paul Dubhorn, technical director

SOUND SYSTEM SOLUTIONS

## LARGE EUROPEAN CHURCH

**Experience worship services in a new way.**

### **World class sound, discreet design**

Our installation-dedicated loudspeakers are acoustically and aesthetically matched, so no matter which combination of products you select, your system looks as good as it sounds – blending into the architecture while filling the room with superior quality audio.

### **Flexible options to suit your space and budget**

From spoken word services to music-led worship, we offer one of the world's most comprehensive portfolios of audio technology solutions, providing you with precisely the tools you need to deliver your message clearly, no matter where or how you choose to share it.

### **Share your message with clarity**

Achieve a clean, natural-sounding mix for voices, vocals, instruments and music with the highest intelligibility and consistent coverage across every seat.

### **Intuitive, easy operation**

Worship services have developed a lot in recent decades, and your congregation's expectations are high. Our solutions achieve the ideal balance of sophisticated performance and ease of use via intuitive software control interfaces, right down to individual tablets.

### **An investment that lasts**

Our brands, Dynacord and Electro-Voice, have stood at the forefront of audio technology for decades, leading the way forward in terms of quality and reliability. With our experience and the best customer service in the industry, we offer you real added value.

# LARGE EUROPEAN CHURCH

EXAMPLE FOR 700-1.100 PEOPLE

## System Overview

Two arrays, consisting of 3 EVA tops (2 array components in one housing) supported by 2 EVA subs, cover the entire room evenly. PolarChoice and RE3 wireless microphones complement the performance while 4 TS200 mounted on the array, serve as a monitor system for the stage.

## System Benefits

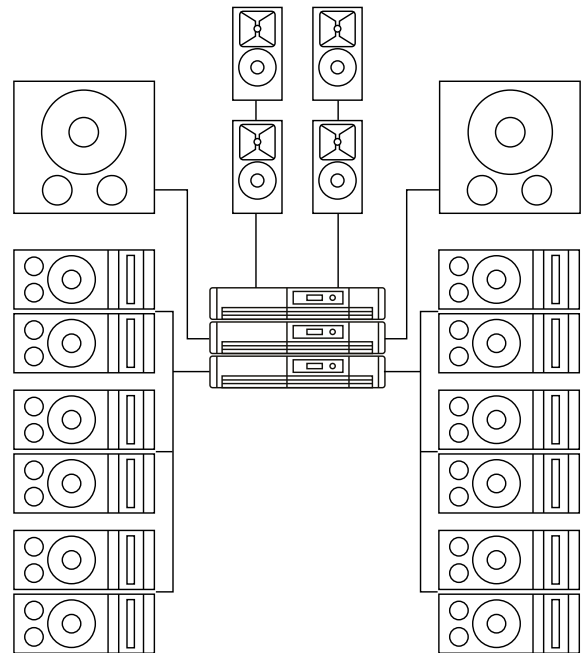

Line array performance at an entry-level price.

Concealed hardware gives an elegant appearance.

Extremely efficient, as up to 6 EVA modules can be amplified and controlled via one C-series channel.

Remote control and monitoring of the amplifiers by intelligent, free software.

Easy preset selection through GPIO connectors and on/off remote control in C-series amps.

## LOUDSPEAKERS

4x EVA 2082/906 WHT (Top)

2x EVA 2082/920 WHT (Top)

2x EVA 1151D WHT (Sub)

4x TS200 W (Monitor)

## AMPLIFIER & MICROPHONES

3x C3600FDI

2x PolarChoice 18 XLR

2x RE3-wireless microphone handheld transmitter

1x RE3-wireless microphone headset

## If you need it, we have it!

The Vertical Array and EV-Innovation loudspeaker families were especially developed for the different demands on technology and architecture that are found in houses of worship. The models of each series can be mixed and matched to achieve the best possible result for your installation. With our PolarChoice and RE3 microphones as well as the CMS mixing consoles and MXE-5 Matrix Mix Engine, we provide additional high-quality components to meet all of your structural and acoustic requirements.
